

## Intelligent Cleaning & Facility Automation Solutions

The trusted technology partner bringing intelligent automation into commercial facilities

# Smarter Cleaning. Greater Efficiency. Modern Operations.

MicroMem helps organizations modernize facility operations with AI-powered autonomous cleaning solutions designed for today's high-traffic commercial environments.

From office buildings and healthcare facilities to schools, retail spaces, hospitality venues, and industrial environments, autonomous cleaning technology helps organizations improve consistency, streamline repetitive floor-cleaning tasks, and support facility teams with innovative automation.

### Designed for Modern Commercial Environments

- ✓ Autonomous floor scrubbing & vacuuming
- ✓ AI-powered navigation & obstacle avoidance
- ✓ Real-time cleaning intelligence
- ✓ Multi-surface cleaning capabilities
- ✓ Quiet operation for occupied environments
- ✓ Scheduled and automated cleaning workflows
- ✓ Docking, self-charging & automated operation

#### Ideal For:

Transportation Hubs

Industrial Facilities

Commercial Real Estate

Healthcare

Education

Retail

Hospitality

### Why Organizations Are Exploring Autonomous Cleaning

Help support existing facility teams

Improve cleaning consistency

Reduce repetitive manual tasks

Gain actionable cleaning insights and reporting

Enhance operational efficiency

Deliver modern, technology-forward environments

# Why MicroMem?

Technology is only part of the solution.

MicroMem provides organizations with a trusted partner to help evaluate, deploy, and support intelligent facility automation solutions tailored to your environment and operational goals.

## MicroMem Provides:

Solution consultation & planning

Site evaluation & recommendations

Deployment coordination

Ongoing support & guidance

Integration with modern facility operations

Trusted technology expertise

## Intelligent Automation for the Modern Workplace

Autonomous cleaning solutions combine AI, smart navigation, advanced sensors, and real-time operational intelligence to help organizations create cleaner, more efficient, and more modern facilities.

Whether you manage a corporate office, healthcare facility, educational campus, retail environment, or commercial property, MicroMem can help you explore the next generation of facility automation.

## Ready to Learn More?

Schedule a complimentary consultation and discover how intelligent cleaning automation can support your facility operations.
