

Enterprise level IT Strategy for Healthcare Organizations

MicroMem bridges the gap between legacy and new technology, providing the strategic oversight to ensure your systems remain scalable, compliant, and most importantly, always available to support your providers and patients.

For over 30 years, MicroMem has supported healthcare organizations with technology solutions designed specifically for clinical environments - where uptime, mobility, and security are critical to patient outcomes.

MicroMem understands healthcare isn't just about IT - it's clinician and patient critical.

We design and deliver solutions that:

- ✓ Support clinicians at the point of care
- ✓ Improve workflow efficiency and accuracy
- ✓ Enhance patient experience
- ✓ Maintain strict security and compliance standards

Core Healthcare Solutions

Clinical Mobility Solutions

- Mobile workstations & tablets for bedside care
- Real-time access to patient data
- Improved clinician productivity

Healthcare-Ready Devices

- Infection-control-friendly equipment
- Durable, hospital-grade hardware
- Designed for demanding clinical environments

Secure Healthcare IT Infrastructure

- HIPAA-conscious endpoint and network design
- Secure access to patient records
- Reliable, always-on connectivity

“

MicroMem helps healthcare providers deliver better care through smarter, more reliable technology - powered by trusted partners like HP.

MicroMem partners with HP to deliver secure, healthcare-ready devices and print solutions designed for clinical environments - helping providers improve care delivery while maintaining compliance and security.

Enabling Better Patient Outcomes Through Technology

Healthcare Challenges We Solve

Healthcare organizations today face increasing pressure to:

- ✓ Improve patient care while reducing costs
- ✓ Support clinicians with better tools
- ✓ Maintain compliance and data security
- ✓ Modernize legacy systems without disruption

MicroMem helps your IT team solve these challenges with tailored, real-world solutions.

Healthcare Technology Powered by HP + MicroMem

-  **HP Healthcare Edition PCs & Mobile Devices**
Designed for clinical use with easy sanitization and durability
-  **HP Secure Print Solutions**
Protect patient data while enabling efficient document workflows
-  **HP Wolf Security**
Built-in endpoint protection for healthcare environments
-  **Device Lifecycle Management**
Deployment, support, and ongoing optimization

Where MicroMem Delivers Value

Hospitals & Health Systems

- Clinical mobility solutions
- Secure infrastructure deployment
- Workflow optimization

Outpatient Clinics & Medical Offices

- Scalable IT solutions
- Mobile patient engagement tools
- Secure endpoint environments

Long-Term Care & Specialty Facilities

- Reliable connectivity
- Durable, easy-to-use devices
- Centralized communication systems

Why Healthcare Organizations Choose MicroMem

- ✓ 30+ Years Supporting Critical Environments
- ✓ Deep Healthcare Technology Expertise
- ✓ Certified HP Solutions Partner
- ✓ Proven Track Record Across Different Sized Organizations
- ✓ Tailored Solutions for Clinical Workflows
- ✓ Hands-On Deployment & Support

Outcomes We Deliver

We help healthcare organizations:

- ✓ Improve clinician efficiency and satisfaction
- ✓ Reduce operational friction
- ✓ Strengthen data security and compliance posture
- ✓ Enhance patient experience and care delivery
- ✓ Future-proof their technology infrastructure

SUCCESS STORY

Memorial Sloan Kettering Cancer Center

MicroMem supported MSK's enterprise Epic transition by coordinating device readiness, procurement alignment, and deployment execution.

-  **\$2M+** Savings
-  **100%** Device Readiness
-  **Zero** Deployment Delays
